Aliaksandr Bosiakou

Minsk, Belarus

I am a student at BSU and a junior software developer.
I am currently focusing on a Java developer and am
working on several educational projects C++.

Education

Belarusian State University
Bachelor's degree, Applied Mathematics
(September 2022 - July 2026)

Java: https://github.com/AlexBosiakov/Industrial-programming

Working with Java, I studied such features and tools as:
Maven, JUnit, Json and so on.

C++: https://github.com/AlexBosiakov/Operation-system-labs

In the operating systems course I studied the work of
threads and processes; how to work with Win32API,
CMake, Boost and Google Test.

English

In the program of my specialty there is an English language
course, studying which I increased my level of
understanding of the language and expanded my
Vocabulary.

.NET Development

Also during my summer practice worked with Git and study
basics of .NET and C#.
I actively improve my skills, expand my knowledge in
various areas of programming and more.

Summary

While studying at BSU, I studiedcourses in Algorithms and
Data Structures, framework QT, operating systems and
Industrial programming in Java.
I actively improve my skills, expand my knowledge in
various areas of programming and more.
